

CIPANP 2003

Conference on the Intersections of Particle and Nuclear Physics

Grand Hyatt Hotel – New York City

May 19-24, 2003

Dear Colleague:

This letter is to invite you to the 8th Conference on the Intersections of Particle and Nuclear Physics (CIPANP 2003), which will be held at the Grand Hyatt Hotel in New York City from May 19-24, 2003. Enclosed are Conference and Housing Registration Forms. The PDF versions of the Conference Poster in 2 sizes are placed at www.cipanp2003.bnl.gov. We hope that you will pass the information at your institution so that other potential participants can be made aware of the meeting.

Our plan is to have 19 plenary talks covering broad overviews of frontier research areas and 10 parallel sessions with many more specialized briefer reports. On the last day of the meeting reports on the highlights of the parallel sessions will be presented by their conveners, followed by several future outlook talks.

We encourage students, postdocs and more senior researchers to attend and contribute papers of relevance for the parallel session topics listed on the poster. For further details and updates, consult our web page at www.CIPANP2003.bnl.gov.

Having a meeting in Manhattan is a rare event, but no place is better suited for sharing the exciting advances in quark and lepton physics. We hope that you can attend. Please register as soon as possible.

Sincerely,

William Marciano

William J. Marciano
Chair of the Organizing Committee
